To qualify for "Combined Groups 1 and 2" freight, all products must be on one purchase order. Combined orders that include "Group 3 Items" will be charged freight based upon the terms for "Group 3 Items." Combined orders may be placed either with a manufacturers' representative that carries the desired product lines or directly with nVent.

Freight is allowed per the above terms to anywhere within the continental U.S. (Buyer is responsible for any loss and freight incurred after loading at inland point of departure). nVent will ship by truck, Parcel Post or UPS, whichever is least expensive for a given shipment. If Buyer requires special transportation methods or multiple shipments, all orders will be shipped prepaid and add or collect, regardless of order value. nVent does not assume responsibility for combining orders on shipments to reduce or eliminate freight charges. Orders for less than standard box (package) quantities will be increased to standard quantities from nVent Distribution Centers without further notification.

* Indicates value of order "release." Free freight will not exceed 10% of the order "release" value.

All purchases are subject to nVent Terms and Conditions of Sale available at nVent.com
